## Summary

Recent graduate with a passion for software development. Seeking to attract an entry level software developer role in order to utilize and further develop my technical skills, proficiency in coding languages, problem solving ability and aptitude for collaborating approaches. My aim is to apply the knowledge gained from my studies combined with practical experience to contribute significantly within a successful organization. Along with my technical skills, I am adaptable and flexible, able to work in a dynamic and fast-paced environment, and I am dedicated to maintaining a positive attitude and a strong work ethic.

## Familiar Skills

- HTML
- CSS
- JavaScript
- React
- Node JS

- MongoDB
- MySQL
- Git/GitHub/GitLab
